THESIS WRITER

B.S., Good University, City, State 2007

M.S., Second University, City, State, 2011

A dissertation submitted to the
Faculty of the Graduate School of the
Univeristy of Colorado in partial fulfillment
of the requirements for the degree of
Doctor of Philosophy
Department of Biongeneering

2014

This disertation for the Doctor of Philosophy degree by
Thesis Writer
has been approved for the
Department of Biongeneering
by

John Smith, Chair
Joe Smith, Advisor
Katie Smith
George Washington
Thomas Jefferson

Date_____

Thesis Writer Last Name, Thesis Writer First Name + Middle Initial(Ph.D. Bioengineering)

Thesis Title

Thesis directed by Associate Professor Joe Smith

ABSTRACT

Your abstract.

The form and content of this abstract are approved. I recommend its publication.

TABLE OF CONTENTS

ABSTRACT	iii
I INTRODUCTION	1
1.1 Specific Aims	1
1.2 Background & Significance	1
1.3 Innovation	1
II SUB PROJECT 1	2
III SUB PROJECT 2	3
IV SUB PROJECT 3	4
V EVALUATION OF BIOMARKER PANEL IN CTCS ISOLATED FROM OVAR- IAN AND PROSTATE CANCER PATIENTS	5

CHAPTER I

INTRODUCTION

My Introduction.

1.1 Specific Aims

1.2 Background & Significance

1.3 Innovation

CHAPTER II

SUB PROJECT 1

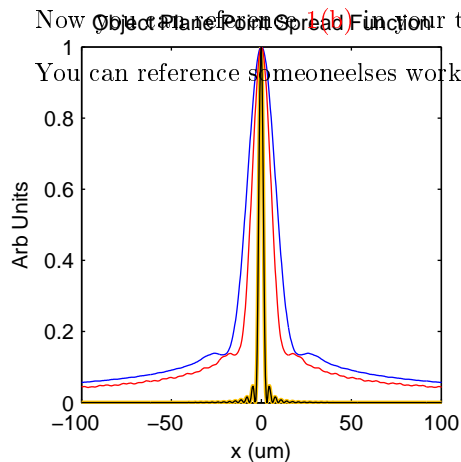

Chapter structures are pretty flexible. Some may prefer a Introduction, Methods, Results, Discussion approach. Take an approach that describes the project with the most clarity.

ere is an example of how to insert a figure. Size the eps files for input so it doesn't have to be scaled. Scaling can be added using the `includegraphics[]` tag.

(a) Phase Distribution of Perfect Lens and Phase Accumulated to the lens plane

(b) Point Spread Functions

Figure 2.1: Phase Distribution for a perfect lens (a). The accumulated phase(green) is in the apostate direction of the perfect lens(black). (b) shows a comparison of PSFs of the perfect lens(black) to the previous ones of the spherical lens(blue) and parabolic lens(red). The PSF of the prefect lens overlaps Abbe PSF (solid).

Now Object Plane Point Spread Function

You can reference someoneelses work like this. The Abbe diffraction limit was first published [?]

CHAPTER III

SUB PROJECT 2

CHAPTER IV

SUB PROJECT 3

CHAPTER V

EVALUATION OF BIOMARKER PANEL IN CTCs ISOLATED FROM OVARIAN AND PROSTATE CANCER PATIENTS

REFERENCES
